StatPet™

When cost is a driving concern, the StatPet air-displacement pipette provides value without sacrificing accuracy and precision. Designed for economical inclusion in diagnostic kits, the StatPet is available in a rainbow of colors and can be printed with your name and logo.

 **TRICONTINENT™**
HANDLING LIQUIDS...PRECISELY

Functional

The single-volume StatPet is an easy-to-use addition to any diagnostic kit or laboratory application. Available in volumes that range from 20 μ L to 1 mL, the StatPet is designed to handle thousands of pipettings using generic disposable tips.

Accuracy and precision

Durable molded plastic stands up to the rigors of the lab. Accuracy on all volumes is typically $\pm 3\%$ or better. Results are reproducible to 2% C.V. or better.

Versatile

The StatPet is available to OEM customers in quantities of 100 or more. Orders can be packaged in bulk (bags of 100) or in custom packaging that you designate. The StatPet is offered separately or with disposable tips. Options include a detipper bottle for easy tip removal.

The StatPet helps you maintain the balance between cost, convenience, and accuracy.

“...maintain the
balance between
cost, convenience,
and accuracy.”
